THE tax levied for State purposes in 1857 was (12) twelve cents on the \$100 of property, and 40 cents on the poll, including the levy for the Insane Asylum and to pay interest on the public debi. por 1878 we have no interest to pay on the public debt, and yet the levy for State purposes in this year is 33 cents at the \$100, and \$1,14 on the poil, considerably over three times as much. In In 1857 co ton was 18 cents per pound. In 1878 corton is down to 71 cents per pound In 1857 the general State taxes exclusive of interest on public debi) were under \$150,000. In 1878 the same 3xcs were over \$500,000, being an increase of \$350,000. The increase in county exclavagance is fully as much. making \$7.0,000 per amum drawn from an improverished people more than was pard by a prosperous people. In 1857 the negroes paid a large croportion of the taxes. In 1878 the negroes pay little talles and the burden is borne by the whi es. Let us return to the economic draxes of twenty years ago, and this \$700,000 left annually in the pockets of tax-payers will and greatly to bring about a return of prosperity.

For the past ten years the dog has heen an issue before the Georgia Legis. ture, the sheep owners making a vigoaus effort to thin out the curs and proted their flocks by taxing the canine. Two years ago a dog tax law passed the House, but was killed in the Senate ou constitutional grounds. The constitusinual convention which met last year removed that objection, and there is a good prospect that the present session of the Legislature will add one hundred thousand dollars to the State revenue by taxing male dogs twentytive cents and females twice as much. Every man who fails to return his der for taxation, according to the provisions of the bill, is liable to five doilars fine or ten days in the chain gang, and the State will pay fifty cents for the scalp of every such cur.

THE KENTUCKY WAR.

Arrivai of the tate Troops in Breatuitt County -- A Placky Judge.

LEXINGTON, Dec. 22.-A detachment of State guards, sent by Gov. McCreary to Jackson, Breathitt county, arrived there, last Tuesday, making the journey on foot from F. enchburg, a distance of sixty miles, in five days, over the worst road it is possible to conceive. The soldiers were weary enough when they got to their journey's end, and, claubing the lutte his which Jackson is built, they took posposition and have fitted it up as a guard-house. A few citizens in town were glad to see them, hoping that their presence will put an end to the troubles that have disgraced the couny. At present the factions have ceased tueir strife and have returned to their nomes. On Tuesday nine of the county magistrates relying on the protection of troops, assembled and appointed by unanimous vote J. W Lydon, county judge, to act until a popular election can be had. A special term of the Breathitt Circuit ourt is called for the first week in January, and Sheriff Higgins announces his determination to do his duty strictly, aided by troops, between whom and the rioters no collision is expected. At last accounts all was quiet.

## Distress in Great Britain.

White we have ample ground for ooking hopefully to the future, Great Britain seems to have just entered open period of distrses which threatens to be severe and may be fraught with serious consequences. The condition of her industries and of her laboring population is the more cheerless mastransient or even temporary. If it be true that the failing off in her trade, the great decrease in the world's de mand for the products of her industry, is due to the fact that coun ries which she has been wont to supply have built up appliances of their own for meeting that demand, and are prepared neuceforth to provide for themseives what they used to take of her. then it is hard to see how her manutactures are to recover their lost ground. In a country like the United States, for n stance, which has naturally every advan age that England has for manufacturing industry, and some that she as not, and which has succeeded in accumulating capital and esstablishing that industry on a considerable scale. there is It le chance of retrogression under the pressure of competition on us own ground with a distant na-What it has gamed it i kely to hold, and it will go hard but it will better its condition and supply its own markets more and more completely, even if it does not push its way into those of other countries. The same haid true in a measure of other lands which formerly obtained their manufactured goods largely from Great Br tain. While there may have been in the last few years a falling off in the aggregate consump ion, it is beyond question true that what is left has been met in an increasing proportion by home production. In North Caro ina there appears to be litde doubt of the election of Ex-Governor Vance to the seat now occupied by Mr. Merrimon. This result will be a gain for the Senate. Senator Merrimon is making a hard fight to retain possession, but without avail. In Arkansas, the choice is said to be between Mr. J. D Walker, an eminent lawyer of the northwestern part of the State, and Colonel R. W. Johnson, of Little hock. The latter was a member of the Confederate Senate, and served in Congress before the war. The St. L us R publican concludes that Mr. Wasker's chances are by far the best. In Wi consin ex-Senator Matt Carpenter is in the field, but with the chances cors derably agriest him. Gen. Logan will probably be returned from Illinois. The indications in Connecticut are that General Hawley will be sent to the Sonate as the successor of Senator Barbum. So far as regards the comparative legislative usefulness of the two men, the change from Barnum to Hawley will be gratifying. On the whole, the personnel of the next Senate will be sensibly improved.

A SHORT -MRIFT.

Lynching Near Mooresville of One of the Murderers of Mr. W. G. Fowler.

Charlotte Observer. As foreshadowed in Sunday's Obse v.r. one of the murderers of Mr. W. G. Fowler, the Mooresville merthant, feil a victim-Satu day night, to he righteous indignation of the pocpie of that community. From the ight of the marder up to the present time, the wia h of the people of th araged community has not cooled out ota, and it was tasy to be seen, from he very first, that the people had no idea of allowing any risks to be run in the punishment of the murderer or of submi ting to the law's delays and its lability to miscarriage. They were resolved from the beginning TO TAKE SUMMARY VENGEANCE

upon the sl yers of one of their most esteemed citizens, and the sequel proves that there was no sensationarism in the announcement, in the la t issue of this p per, that a speeder justice than that which the law allows had at that time nest surely overtaken the criminal. A vagary of the populace or the strategy of a deputy sheriff prevented a realization of our exp ctations in full.

The most authentic a counts received

here are to the effect that slortly after the peliminary examination of Julius Davidson, and Jo Gillespie, before Justices Harrs and Walker, on the evening of Saturday last, the 21st., Deputy Sheriff E. F. Goodman s arted by private conveyance with the prisoners, to place them in the common jail at statesville.

### MUCH EXCITEMENT

was manifested among the people, and the sheriff had summoned for his much as it is, to all appearance, due to causes that can hardly be regarded as who were sincere in their determinaguard some fiteen or twenty of the b st men of the town and community tion to take the prisoners to jul. About two miles from Mooresville they were atta k d by a large crowd, numbering tifty or more, comprising men of both races, all unmasked and on foot. It was then growing dark. The sheriff and his p see exerted their best end-avors to retain the prisoners and hus defeat the object of the excited cit zens and did finally escape with Jo. Gillespie, leaving Davidson in the hands of the mob.

THE LYNCHERS hurried with their prisoner straight up the public road, and finally halted about two miles from the scene of them capture, under an oak tree on the roadside. There is no one to picture the scene. Warca there occurred, but

THE DEAD R DY of Julius Davidson, found banging next morning A trace chain was fast ned around his neck, and so low was he limb from which he hung suspended, that his feet lacked but little of touching the ground. And throughout Saturday night, Sunday and Sunday night, and Monday, up to the time the train passed Mooresville yesterday af ernoon the stark body DANGLED FROM THE LIMB OF THE OAK swaying to and to a, the will of the winds, and nahady approached it to cut it down.

Thus did justice, rude and wild and

sometimes unce tain justice, but justice in this case for all that, claim its victim, and that, too, within less than without wounding the sensibilities of one hundred hours after he had dealt the blow which called the soul of his victim to the bar of G.d.

It may be seriously questioned if the lynchers had designs upon the life of Gillespie-he who

PLANNED THE MURDER which the other committed. At all interrupted, and at 3 o'clock Sunday morning lodged Gillespie safely in Statesville jail. His fright, when Davidson was aken, was extreme and his we know, many honorable gentlemen penitence deep. It is said that be begged the officer to allow him to be the slanders cast upon our section betaken and be hanged with Davidson, as he deserved death equally with him.

So indeed he dors.

The excitement at Mooresville and in the surrounding country is still great, as it might naturally be expected to be. There is no more staid population in North Carolina than that of Iredeli county, and no more staid or interligent neighborhood to an that about Mooresville. Utime is rare among them and s murder attended with circumstauces of such peculiar atrocity has never before occurred in their section.

Once again comes to us this beautiful season of hope and joy and present pleasure, the anniversary of hat never to be forgotten time when the "day spring from on high visited us," which is observed by Christian people everywhere. Of all times of the year none is held in higher remembrance than this season, and young and old alike acknowledge the peace and blessing of the day. Amid the cares of business and of life at large, it comes with a healing calm of quiet, and none fail to do it reverence. The thousand tender reminiscences of the time that clinging give it a flavor of sauctity and love, make merry Christmas the tenderest season of the year. It is peculiarly a time to "warm the cockles of one's heart." and cause each one, however poor to feel as if he would be pleased to do his neighbor aught of good, either in spirit or materially. Looking brought us, we find so much of mercy to us individually and as a people that no thoughts but those of joy are uppermost. This is the time of good deeds, which amid winter's chill, shine and comfort more than summer's gladness. Reflecting, then, on blessings showered on us so unworthy, let us strive to make more glad the lives of those less fortunate, and pray that our smallest gift or kind wish to those who are poor or desolate and oppressed may prove a healing balm. The NEWs has only to wish its kind readers everywhere a merry Christmas and a happy New Year, and to hope that whatever of prosperity Heaven can send may be theirs, not for the next twelvemonth only, but for all time to come.

### Some Newspaper Lies,

The malignity, undying in its nature, toward the South evinced by a part of the Northern press, seems in this enlighted age, and in America, the height of folly and absurdity. That our readers may see to what extent such unreason may be carried, the following editorial from the Hartford, Conn., Evening Post is printed: "In a remarkably lucid interval the Bridgeport Farmer has permitted itself to give its readers a bit of truth respect- lug by age. Its existence in its presing the South. Listen:

'No Southern State's ma ests can be damaged without percepti ble, though indirect, injury to Northern business interests. Whenever the consumer's resources are lessened, the producer must also suffer, and it is likewise true that an increase of the consumer's resources benefits the producer. The South is the natural market for Northern manufacturers. Whatever reduces her resources or prevents their inflicts damage upon Northern interests.

"That is even so; but how are the Southern States' material interests damaged? It is by the illiberal and almost lawless course pursued by that class in the South which assumes to itself a prescriptive right not only to govern but to regulate the opinions of the inhabitants of that part of the Union. It is a Loterious fact that while the South needs the capital and energy that have built up the North and West, there are wide districts in that section where a Northern man, no matter how honorable and industrious, cannot live with any comfort to h mself or his family. If he carries with him the ideas and principles of his Northern home he is at once made to feel that he can never become a recognized member of the community where he has made his new home. If he is not visited with actual violence, and forced at last to fly with his family for safety, as hundreds H. R. STEVENS :have been, he is tabooed from society and every petty annoyance put upon him to make him understand that he is looked upon as an interioper. Some have stood this sort of thing, but there are many who would be glad to go South who do not care to subject their families to such persecution. The advantages are not great enough to make it worth while, when decent communities are accessible elsewhere. Southern men who urge Northerners to come down to their country confess the littleness of their people when they advise emigrants to go in companies so that they may form a little society of their own. But this is not all. This hostility to the North and Northerners is carried into Southern courts, and it is found in many cases impossible for

To the untruth which every sentence of the above contains every Northern man in the South will promptly testify, and the malignity which can prompt a journal to make such a statement has no parallel. The Sou h and its people are quick to recognize a gentleman and an honest man at all times and everywhere, and such find ever a cordial welcome. The slur at our people by the paper above named shows not only its own littleness but the feeling of the people to whom it panders. The North ern men in North Carolina to-day, and there are many of them, will echo the scutiment that never was talsehood carried further, or never did it have less of ground to rest on.

Northern merchants to collect their

just claims."

## Immigration and How It (an

be Secured. The most important thing to accomplish in order to develop the great natural resources of the State is to secure se of population by immigra tion. This has been the principal source of wealth and cause of prosperity in all the Northern and Western

restless people who are always trying to find a better place. This has been peculiarly so with North Carolina; she aas sent out her sons and daughters, and thousands of the noblest and brightest of them, to enrich other States. She must do something to retain our native population at home, and to induce immigration from abroad-Our mountains may groan with mineral wealth, our soil be ever so fruitful, and all nature may conspire to make us great and rich, and yet without population we will remain poor.

Sinc the war many of the Southern States bave outstripped North Carolina in almost every element of prosperity, and e-pecially in securing an increase of population from abroad. This is true of States possessing nothing like the natural resources of our State, and we propose showing why this is, and thereby indicating the remedy.

We have acted upon the principal in this State in the feble efforts we have made to induce immigration, that we are to go behind and drive them, rather than go before and lead them. Immigration flows in natural channels and we would have the current flow in upon us, we must commence withbackward over what the dying year has in the State and dig a channel up to the source.

On the contrary there are conditions and causes which act as a barrier which have never been removed, and until they are removed, immigrants will not come here. Men who immigrate, do so for their own benefit, aud they will always seek the place which offers them the most advantages, and at which they will be surrounded by the most favorable circumstances.

One of the chief obstacles to immigration into North Carolina has been the unadjusted condition of our State debt, and one of the first duties which should be performed is the adjustment of that debt. There is scarcely any thing which has more to do with influencing the judgment of a man, considering the question of immigration, than the prices at which the bonds of the State are quot d. When a man in Canada or some North orn State reads the quotations of North Caronna bonds in the New York market, he very naturally concludes that a State must be miserably poor when its best boads. and bonds of undisputed validity, are quoted at sixteen cents in the donlar, and other boods at one and a haif and two cents in the dollar. Now this matter of the State dept must be settled sometime or other, and it is not improvent form is a source of constant mortiication and a great barrier to our s cess. A State can no more afford to

have as unadjusted debt hanging over it tuan an ingividual, and our debt is an incubus upon us. It has paraly z.a. our efforts. Let the Legislature take this matter in hand and settle it in some way. A il de states mansulp a io nerve Windo it, Make the bist compromise we can, but let the marter be setued. North Carolina ought to pay the interest on her bonds regularly and have them worth par, and such a settiement can be made as will enable her to do this. When this is done, one of the greatest barriers to immigration will be removed, and a long stride Will be taken in the direction of propriety

Lever Feed Cutter, something entirely new and novel in the feed cutter line. With this cutter the feed in cut off diagonally, instead of square across, as is the case with all other cutters at the same time our cutter has a draw cut, acri glexacity on the same principle that a knife is used is cutting off a suck, consiquently with our Diagonal feed Cutter we can cut more feed with less labor in a given time than any other cutter costing twice as much.

FACTS ARE STUBBORN THING

(Registered.) A BRIEF HISTORY:

The following is from the Raleigh News, and was a voluntary insertion and not an "Years ago an old Indian left a receipt for curing scrotula with Mrs Person's father-Mrs. Person lives in Franklinton, or in that section. A child was torn to Mrs, Person and it had the Scrotula. The doctors gave it up to die. She thought of that receipt, that was now old and musty, and hid away in an apstairs arawer. She concluded if the child was bound to die, it wouldn't hart to follow that receipt. She went outland gatherea the was bound to die, it wouldn't hart to follow that receipt. She went out and gathered the herb, got the whiskey, and did as directed to the coillo. Her child now lives well a dhearty. More than this: O by a 'ew wonths since a south Carolinian, whose name has slipped us, was suffering with some scrointous affection on the heel he had been to the Hot Springs in Arkansas, and from there he went to kittrell Springs. Notting did him any good. At kitt ell s they tol. him of Mrs. Person's recipe, and Dr. —— wrote to Mrs. Person's recipe, and Dr. —— wrote to Mrs. Person's he cured that South Carolinian her receipt was worth money. And the south Carolinian sent her word if she cured him he would give her five hendred domars. She sent him die ctions what to do, and added if they cured him he would send her twenty-five dollars; she wouldn't ask five hundred. The South wouldn't ask five hundred. MES. JOE PERSON: Dear Madame-Your letter has been rebeived, and on account of being absent from opportunity to answer it I certainly will take great pleasure in doing all t at is within my power towards getting you petients for treatment of Scroula. I hardly know now to express my grantide to you for changing three it the amaren. They took medicine from my landly physician for about two years, with scarcely any fetter at all. I tried your remedy, and in less than three weeks they were all perfectly cured, and mave never shown any sign of breaking out again. If elvery thankful to you, I can safely say that I believe your lenety to be a certain dure for Sciofula. If I can ever be if any service to you in any way, I want you to be sure and call on mo. "It will Cure if Fairly Tested." It gives me much pleasure to be able to state that I nave derived an effectual cure of scrottula from the use of Mrs. Joe rerson's remedy for that disease. I had suffered from Scrottula for mole than three years, and had despailed of evel getting well. I was treated during that time by three very emine t physicials, without any good result. I then went to the National Surgical institute, at Adanta, Galland, without any good result. I then my family physicials met with. Aft is returned from the institute I was persuaded to try Mrs. Person's remedy, and I had not used it more than a week before I arecovered its curative and healing properties. My sores soon began to held, and the color of my skin changed as fast as the sores healed. I had not thought or ever getting well again, but my hopes increased. and the color of my skin changed as fast as the sores healed. I had not thought or ever getting well again, but my hopes increased, my low spiritedness field before the remedy, and I am now en oying spiendid neath and am in good spirits. The remedy is mild as a purgative, and a strong tonic; it will head the most studborn sore in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is haled, to remove the cause of its effects, it should be taken regularly by all meals, for I have sometimes neglected it, from the pressing of outsiness, and in all cases found that the care already made would commence to retrograde, and for this aione it should be taken regularly until an effectual cure is completed. Nothing should prevent regularity in the use of the remedy and it should be taken at the proper time. I would recommend to all who are suffering from second that the control of the remedy and it you give it a fair test. I speak from experience, and not from hearsay. I am a grate in recipient of a cure from the use of it may am a der many and asting obligations to Mrs. here on or the great relief if ave obtained from its use. Sufferers, trylind be cured, is my advice.

## The Bear.

At Mr. Higgs restaurant is shown somewhat of a curiosity, a large black bear, which a few days ago was brought here from one of the western counties and sold. The animal is in fine condition, delightfully tame, and his thick coat of hair is of a rich, glossy black. He was an object of special attention to crowds yesterday as he walked around the yard, but was given a rather wide berth by the gazers, who were rather incredulous as to his peaceableness of disposition. The youngsters will call to-day and see Bruin the bear, who is one of the sensations of the

### Christmas I rees. The only Christmas trees last even-

ing were those at the Salisbury street and Swain street Baptist Churches, and these were the cen res of attraction for the children of the respective Sunday schools. Both were load d with toys, fruits and other presty things, whose beauty of airangement, combined with the gitter of lights and the hum of many voices, made the scene charming and cheerful. The tree at the Sal s bmy street Church was in the basement, and was open to public view at 7 o'clock. The exercises were brief, being a speech by Col J M Heck, and a few remarks by Rev. Dr. Pritchard, in the delightful manner which is one of his characteristics. He gave an account of the origin of the festival. ### Important Postal Rulings.

The postmaster general has issued an order to the effect that after January 1st every description of matter produced by the type writer, the electric pen or papyrograph process shall be charged letter rates of postage. Firstclass matter is held to embrace manuscript and fac similes of the same, except lichograps and photographs. Tue term 'piloted ma ter is beid to mean impressions from movable type.

It is also ordered that hereafter pack ages of any description of matter of he third class, except transient newspapers, must be mailed at postoffices. Postal-car clerks, route agents, local agents, mati-rou e messengers and waymessengers are prohibit dhom receivog packages of mird-class matter, except transient newspapers, This order will prevent unmanable and insufficiently prepared matter which would be refused at a post flice from being forced into the mans on the postal cars. The lack of such order has made itself feit upon the postal revenues.

### Badly Taken Iu.

A couple of extra bright Revenue flicers were Losing around Kittrell's few days ago, in scarca or brockade obacco. They made some mquiries of a waggish gentleman near the prace, asking if a neighbor aid not have some tobacco stored away somewhere. To this the wag replied that they would have to wade in deep water before they ound any. They lest him so suddening that he followed to see what they were atter. Near the house of the ma about whom they made their inquiries, runs a stream of water, and the revenuers made for this at once. They pulled off shoes, and, taking poles, boldly Waded in, probing everywhere for tobacco boxes. Atter some two nours' s.a.ch for the b xes in the icy water, they sadiy gave it up and leit; out they had gone but a little distance when they met a little negro girl. They asked ber if she knew where any to bacco was hidden. She replied that she had heard that lots of boxes Were took a look at tout place. They touse that the well had recently caved in. Thinking they were sure of their prize, the pair stayed by the weil all up ht. In the morning early one went off and procured five abie-bodied Africans. with picks and shovels. The estire four then went vigorously to work to excavate. They worked all that day, and by nightfall of the next struck was ter at a depth of some 40 feet, but round never a box of the weed. The ladies of the congregations of Christ Church and the Church of the Good Shepnerd have been daligently at work with their usual ferver making preparations to decerate those edifices Yesterday their work was finished and so many hours, were arranged with tender care so as to adorn the interior of neither as extensive nor unique as they were last year, but nevertheless present a pretty appearance, and the arrangement is tasa ful.

At Christ Church the lecterm and font are ornamented with heavy sprays or cedar and bolly. The chancel is decorated with sprays of holly, with their scarlet berries on a background of white. The lines of evergreens are led as a border to all the woodwork of the church. Over the alter appear in white letters the words, "We have seen His s ar in the East and are come to worlery is a scriptural text.

At he church of the Good Shepherd the decorations are en irely different from any heretofore. From a point over the chancel droops lines of evergreen, and a large, beautifully formed star is pendeut between two of there. The borders of green are carried along the woodwork of the windows and on all projecting points, while between each of the large windows are selected sentences from the scriptures. The style of deco.ation, though simple, is both pretty and effective.
